Dear Mrs. McCarthy:

This is to inform you that we intend to exercise our option for the second year of the lease on the house at 3765 Northampton, under the same terms, as per our lease contract signed in November 1977.

The Northampton house has proven an ideal place for members of our group to maintain sobriety, and we hope the lease arrangement has been mutually beneficial. The men living there have made rather extensive fix-up and repairs and there are no longer any leaks. They have also painted most of the outside of the house from the gutters down, and most of the inside, including the basement rooms. We have tentatively scheduled an open house on October 22 to celebrate the third anniversary of Oxford House in the Washington area, and hope you can stop by.

Sincerely,

John V. O'Neill
